AssistMyTeam PDF Protector

Installation and Configuration ('Per User Installation' and 'Per Machine Installation')

Page | 1

With this guide, you would be able to quickly install and easily configure AssistMyTeam PDF Protector in your system, and effortlessly set a password as well as apply security restrictions such as ability to print, copy and assemble etc.

For **'Per User Installation'** *(ideal for standalone single user/workstation)* PdfProtectorSetup.zip

For **'Per Machine Installation'** *(ideal for installing on Citrix and Terminal Servers)* PdfProtectorSetup_Citrix.zip

Extract these file contents to a folder.

NOTE: 'Per User Installation' and 'Per Machine Installation'

In 'Per User Installation', the add-in install is performed 100% on the local system and nothing is installed on your Exchange or Windows Server. Further, this install is intended to serve only the current logged on user of the system/workstation and will be installed under the user's application data folder (instead of Programs Files folder) and no elevated permission is required. So, there won't be a prompt from UAC to allow this install unless you change the install directory to say, Programs Files which will warrant an elevated permission/UAC prompt. If the same system is used by multiple users, each one need to install add-in on their profile with the default installation folder location.

'Per Machine Installation': If you have the need to have a single install that serves all users of the system (i.e., the files will be installed under Program files folder and the add-in will be registered under HKEY_LOCAL_MACHINE registry hive rather than HKEY_CURRENT_USER), download the Citrix/Terminal Server version of the setups to perform a per machine installation.

Requirements:

- Microsoft .NET framework 4.5
- Windows 11, Windows 10, Windows 8.1, Windows 8, Windows 7, Windows Vista (both 32bit and 64bit are supported) and all server-based Windows 2012 and above.

Step 1. Run the **PdfProtectorSetup.exe** to start the installation. Click 'Next' to Continue.
